

MYPLACE

design Emanuela Garbin
2019

The modular sofa MyPlace satisfies the highest expectations in terms of relaxation and comfort. Three different depths are available and the seats, armrests and backrests can be arranged freely to create customized linear or corner compositions, pushed back against a wall or taking centre stage in the middle of a room. Completely removable fabric or leather covers; the feet can be square or cylindrical in glossy black nickel or in a matt burnished finish. A tray in a matt burnished finish or covered with non-removable leather can be fixed to the base to provide a comfortable support surface.

The coffee tables MyPlace have irregular shapes, slide between the elements and follow the curves of the compositions. The top is in hand-brushed cement (Velasca finish in the colors cement light grey and lava dark grey); the structure is in matt burnished or glossy black metal finish.
