THE “MOLTENI HOME” IS BOTH AN IDEA OF HOME AND WORK IN PROGRESS. MOLTENI DESIGNS FURNITURE AND OBJECTS THAT RANGE FROM THE TRADITIONAL TO THE CONTEMPORARY, FOR A COMFORTABLE, ELEGANT, CASUAL AND AGREEABLE LIFESTYLE, ONE THAT HAS EMBRACED INNOVATIVE HOME LIVING SOLUTIONS FOR YEARS. NEW PROPOSALS COMBINE PRACTICALITY AND DESIGN, SUCH AS THE “GRID” SYSTEM, PERFECTLY SUITED TO ANY HOME ENVIRONMENT.

“CASA MOLTENI” È UN’IDEA DI CASA E INSIEME UNA RICERCA IN PROGRESS. MOLTENI PROGETTA MOBILI ED OGGETTI, A CAVALLO TRA TRADIZIONE E CONTEMPORANEITÀ, PER UN MODO DI VIVERE COMODO, ELEGANTE, DISINVOLTO, PIACEVOLE. UNO “STILE”, CHE DA ANNI ACCOGLIE SOLUZIONI INNOVATIVE PER SODDISFARE LE ESIGENZE E I PIACERI DELLA VITA DOMESTICA. NUOVE PROPOSTE CHE CONIUGANO FUNZIONALITÀ AL DESIGN COME IL SISTEMA “GRID” ADATTO A TUTTI GLI AMBIENTI.

GRID

VINCENT VAN DUYSSEN

Grid, designed by Vincent Van Duysen, represents a new research chapter in the world of modular wall-systems. A research on the evolution of the domestic landscape, a transversal, open and flexible system, based on a modular grid that organizes the elements of the composition and exalts their function. A system of wall-mounted panels, made with the folding technique, which can be equipped, on request, with LED lighting bars inserted in the central band and in the upper rim. Grid is designed to accommodate all the modern electronic devices and hi-tech equipment for sound and image that amplify the perception of space. As in a crossword puzzle, Grid allows to accessorize the bottom part of the boiserie with hanging or hooked floorstanding containers, completed by thick shelves or trays fitted with Ecoskin bottom. The compositional freedom is further extended in the upper part by open bookshelves, glass cabinets or showcases, of varying heights, either in Pewter or Copper painted metallic finishes, for precious objects, pictures or mementos. The design creativity is open-ended and can be expanded by using different finishes, to be mixed and matched at will. The choice of woods has been extended, beyond Eucalyptus and Graphite Oak, to include the noble Walnut. The matt and glossy lacquer finishes now include the new Copper, Pewter and Dove Grey. Precious details, such as the bonded leather dividers for bookcases and the bronze mirror, allow each individual project to be declined in a bespoke furniture solution.

Grid, design Vincent Van Duysen, costituisce un nuovo capitolo di ricerca nell'ambito dei sistemi componibili. Una ricerca sull'evoluzione dello spazio domestico, un sistema trasversale, aperto e flessibile, che si articola sulla base di una griglia modulare che organizza gli elementi della composizione e ne esalta la funzione. Un sistema di pannellature realizzate a folding e corredate, a richiesta, di barre di illuminazione a LED inserite nella fascia centrale e nella parte superiore. Grid è progettato per accogliere i più moderni dispositivi elettronici e apparecchiature tecnologiche legate a suoni ed immagini che estendono la percezione dello spazio. Come un cruciverba, Grid consente di agganciare alla parte inferiore della boiserie contenitori sospesi o appoggiati a terra, arricchiti da ripiani a forte spessore oppure vassoi impreziositi con fondi in Ecoskin. La libertà compositiva si esalta nella parte superiore utilizzando librerie a giorno, vetrine o teche, espositori a diversa altezza per oggetti preziosi, quadri, ricordi di vita quotidiana, verniciati nelle finiture metalliche del Peltro e Rame. Il sistema compositivo è aperto, non si ferma sugli elementi, ma si espande attraverso l'utilizzo di finiture diverse e accostabili a proprio piacimento. L'essenza si amplia, oltre all'Eucalipto e al Rovere Grafite, si rinnova introducendo un'essenza preziosa, il Noce. Le finiture dei colori laccati opachi e lucido si ampliano, introducendo Rame, Peltro e Tortora. Preziosi dettagli, come i divisori per librerie in cuoio rigenerato e lo specchio bronzo consentono di declinare ogni singolo progetto in una soluzione d'arredo su misura.

HOW HOUSES HAVE CHANGED!
IN THE OLD DAYS, ITEMS
OF FURNITURE WERE DISTINCT,
FREE-STANDING OBJECTS, WITH A
SPECIFIC SHAPE. THEY HAD SPACE
AROUND THEM. TODAY, FURNITURE
HAS BECOME MODULAR, VERSATILE,
ADAPTING TO THE VOLUME,
SHAPE AND SIZE OF EACH ROOM.
ITEMS ARE “MADE TO MEASURE”,
“WALL-STANDING” OR EVEN “FLOOR TO
CEILING”. THE “505” SYSTEM EMBODIES
THIS PHILOSOPHY PERFECTLY.

COME SONO CAMBIATE LE CASE. NELLE VECCHIE CASE I MOBILI ERANO OGGETTI ISOLATI E PRECISI, CON UNA FIGURA CONCLUSA. AVEVANO UNO SPAZIO ALL'INTORNO. NELLE NUOVE CASE I MOBILI SONO DIVENTATI “COMPONIBILI”: SI ADATTANO ALLE ESIGENZE, SI ADATTANO ALLE FORME DEGLI SPAZI E ALLE DIMENSIONI DELLE STANZE; SI DICE IN GERGO CHE “SONO A MISURA”, O CHE “VANNO A PARETE”, QUALCHE VOLTA CHE “VANNO A SOFFITTO”. IL SISTEMA “505” È LA SINTESI PIÙ COMPLETA DI QUESTA FILOSOFIA.

modular
system

505

NICOLA GALLIZIA

505 is a freestanding wall system allowing to compose an extensive range of modular compositions: 7 widths, 3 depths and 9 heights, conceived as a bookcase, TV system or multi-purpose cabinet. The finishes, matt or glossy lacquered or woods and glasses can be mixed and matched to obtain different solutions to satisfy all the needs of contemporary living. Traditional hinged doors with handle, but also pressure opening doors, internal and external drawers, flap doors, sliding doors and vertical sliding doors. Boiserie and multimedia compartments, functional worktops, storage compartments, but also the possibility to compose standalone freestanding units or wall mounted compositions. Molteni&C's key modular system, has been constantly updated to offer furnishing solutions in tune with contemporary living. The recent finish update includes Fine Grain, an exclusive Molteni&C material, a three-dimensional texturized polymer with an innovative process. The glass shelf has been redesigned to minimize the structural aluminum thickness, enabling the transparent glass and the LED lighting to further enhance the objects displayed.

505 è un sistema a spalla portante che si sviluppa in una serie di mobili componibili con ampia modularità: 7 larghezze, 3 profondità e 9 altezze, pensato come libreria, sistema TV o contenitore multifunzione. Le finiture, laccato opaco e lucido, le essenze e i vetri consentono di ottenere soluzioni personalizzate che rispondono alle più moderne esigenze abitative. Oltre alla tradizionale apertura a battente con maniglia, 505 dispone di ante battente, cassetti interni ed esterni, ante a ribalta con apertura premi/apri, ante scorrevoli e saliscendi. A completare il sistema vi sono vani multimediali, piani di lavoro, ma anche la possibilità di comporre mobili singoli, appesi a parete o appoggiati a terra. 505, il sistema componibile cardine della produzione Molteni&C, si rinnova per offrire soluzioni d'arredo in sintonia con l'abitare contemporaneo. Il recente ampliamento di finiture include il nuovo schienale in Fine Grain, un materiale esclusivo Molteni&C, un polimero texturizzato tridimensionale verniciato con un processo innovativo. Ridisegna il ripiano in vetro, il design riduce al minimo gli spessori strutturali in alluminio, lasciando che il vetro trasparente e il sistema di illuminazione a Led integrato nei ripiani valorizzi al massimo gli oggetti esposti.

A HOME CONSISTS MAINLY OF WALLS. WALLS DON'T LIKE TO BE BARE, THEY LIKE TO BE ORGANIZED AND ADORNED. SO WALLS MUST BECOME A RICH, COMPLEX AND ORDERLY UNIVERSE. FURNITURE MUST BE STREAMLINED, READY TO ACCOMMODATE THE LATEST THINGS THAT THE WORLD PRODUCES, TO STORE THEM IN SMALL SPACES AND ARRANGE THEM IN PERFECT ORDER. PASS-WORD OFFERS INNOVATIVE SOLUTIONS DESIGNED TO HOST ALL THE LATEST HOME-ENTERTAINMENT SYSTEMS WITH INVISIBLE WIRING.

UNA CASA È FATTA INNANZI TUTTO DI MURI. I MURI CHIEDONO DI USCIRE DALLA LORO NUDITÀ, VOGLIONO ESSERE ORGANIZZATI E ABBELLITI. CHE LA PARETE DIVENTI DUNQUE UN MONDO RICCO, COMPLESSO, ORDINATO. I MOBILI DEVONO AFFINARSI. DEVONO ESSERE PRONTI AD ACCOGLIERE GLI OGGETTI NUOVI CHE IL MONDO PRODUCE, STIPANDOLI IN SPAZI CONTENUTI E ORDINANDOLI CON GRANDE RIGORE. PASS-WORD DISPONE DI SOLUZIONI INNOVATIVE CHE PERMETTONO L'ALLOGGIAMENTO DI TUTTI I PIÙ RECENTI SISTEMI DI "HOME ENTERTAINMENT" SENZA CABLAGGI VISIBILI.

modular
storage

PASS-WORD

DANTE BONUCCELLI

Pass-Word is a versatile modular storage and home entertainment system, designed to accommodate all the latest multimedia devices. The various wall-mounted or floor standing storage units, fitted with different types of opening, can be arranged alongside special features such as the Grado° Bookshelf. All wiring and cabling is out of sight, thanks to a technological bench that houses the TV, home theatre, DVD readers, smartphone, tablet, digital modems, video game console and Hi-Fi sound equipment. Thanks to the addition of new dimensions for the storage units, Pass-Word redefines and enhances its modularity. Finished compositions range from 96 cm to 442 cm for more than 90 different solutions. This versatility allows for a host of new arrangements as storage units and sideboards for both day- and night-time living. Suitable for floor standing or wall-mounted units, Pass-Word offers a wide choice of matt or glossy lacquered finishes as well as wood. Interiors available in all the matt lacquered finishes, or in cedar wood finish, a warm, scented wood that looks and feels refined and matches well with all the multiple finish options of the exterior.

Pass-Word è un sistema definito dalla libera componibilità degli elementi, dedicato al contenimento e all'home entertainment, progettato per accogliere anche i più moderni sistemi multimediali. Ai diversi contenitori appesi o a terra dotati di diverse tipologie d'apertura, si affiancano elementi speciali come Grado° Bookshelf. Nessun cavo di collegamento rimane a vista, grazie a una panca tecnologica che ospita TV, home theatre, lettori DVD, smartphone, tablet, modem digitali, console per videogiochi e impianti audio Hi-Fi. Grazie all'inserimento di nuove modularità Pass-Word ridefinisce, ampliandola, la sua componibilità. Composizioni finite da 96 cm a 442 cm per oltre 90 differenti soluzioni compositive, che permettono così di creare nuove e molteplici soluzioni d'arredo come contenitori e madie per la zona living o la zona notte. Utilizzabile per composizioni con basamento o sospese è realizzato in essenza, laccato opaco o lucido nei colori della gamma Molteni&C. Interni disponibili in tutte le finiture laccate opache o nella raffinata finitura cedro, legno profumato e caldo, sia al tatto che alla vista, che si abbina a tutti i colori delle finiture esterne.

GIO PONTI

Rug designed in 1954. Made of pony leather in four colours. Tappeto disegnato nel 1954. Realizzato in pelle cavallino a quattro colori.

STRIPE

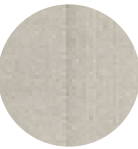

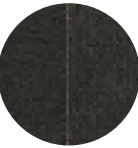

VINCENT VAN DUYSSEN

La sofisticata bellezza di queste morbide superfici nasce dal voluto contrasto tra essenzialità del disegno e del dettaglio decorativo e la ricchezza della materia. Sottili righe alternate di lana e seta creano campiture geometriche in nuances di colori tono su tono che riflettono delicatamente la luce. Armonioso equilibrio tra rigore e forma.

The sophisticated beauty of these soft surfaces is the result of a deliberate contrast between the simplicity of the design and decorative detail and the richness of the material. Slender alternating stripes of wool and silk create geometric backgrounds in shades of tone-on-tone colours that delicately reflect the light. Harmonious balance between rigour and form.

50% lana - 50% tencel

EDGE

NICOLA GALLIZIA

Il tradizionale bordo del tappeto che riquadra la campitura centrale, reinventa la decorazione utilizzando colori della memoria riportandola a segno grafico e cromatico semplice ed elegante.

The conventional edge of the carpet, which frames the central field, reinvents the decoration using the colours of our memory. It is a return to simple and elegant chromatic lines.

PALETTE

NICOLA GALLIZIA

È una collezione costruita di materia e colore, cifra decorativa di questi tappeti eleganti proprio perchè essenziali. Il vibrato del colore crea un effetto morbido e avvolgente che accoglie e diventa elemento ordinatore dello spazio.

A collection consisting of matter and colour, the decorative peculiarity of these carpets is their essential elegance. The vibrato depth of colour creates a soft and enveloping effect that functions as ordering element of space.

ATALANTE

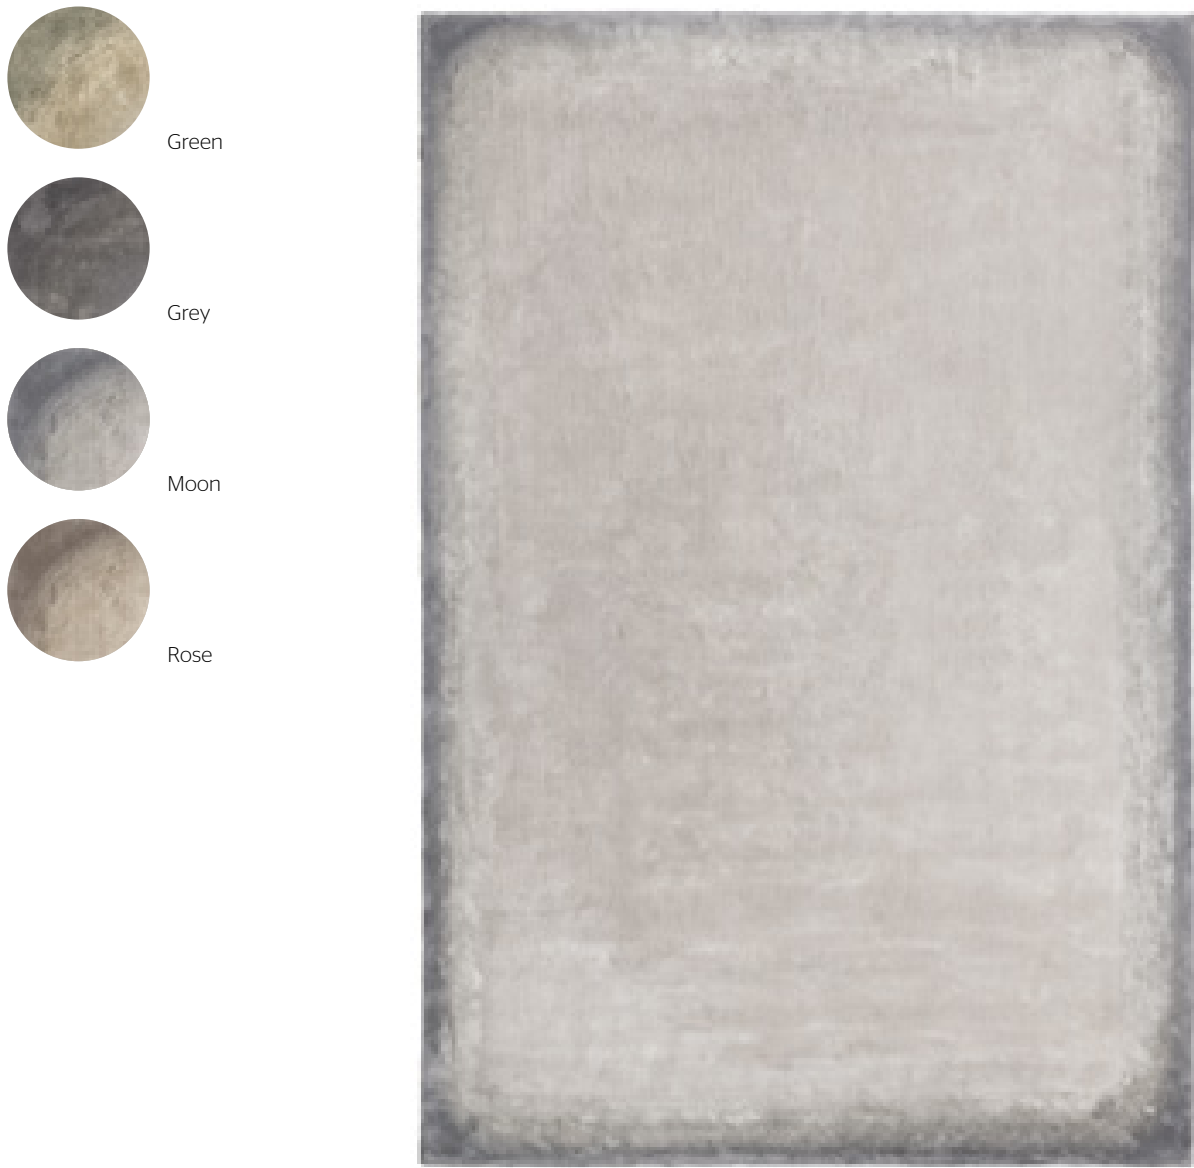

NICOLA GALLIZIA

La fibra naturale di canapa, tessuta a mano secondo antiche tecniche del tappeto intrecciato, disegnano superfici geometriche di semplice ed elegante modernità. Campiture nette, ritmate come una partitura musicale, diventano motivo decorativo che trova la sua preziosità nella materia e nella naturalezza degli abbinamenti cromatici.

Natural hemp fibres, hand woven according to ancient carpet weaving techniques, feature geometric surfaces of simple and elegant modernity. Distinct backgrounds, modulated like a musical score, become delightful decorative motifs in the material and in the natural colour combinations.

LOOP&CUT - HEM - RANDOM

PATRICIA URQUIOLA

La lunga collaborazione tra Molteni&C e Patricia Urquiola si arricchisce di una nuova famiglia di prodotti: tre tappeti riuniti in una collezione esclusiva. Il tappeto ritorna all'antica funzione di isola, dove ritrovarsi e dimenticare gli affanni quotidiani. Sempre diverso, perché frutto dell'incontro tra la più alta creatività occidentale e la millenaria artigianalità asiatica: mani antiche interpretano i disegni, realizzando piccole variazioni personali, frutto di un'abilità da sempre insita nel lavoro della tessitrice.

The long-standing partnership between Molteni&C and Patricia Urquiola has been enriched with a fine new family of products: three floor rugs together in an exclusive collection. Rugs return to their original purpose as islands, places where people sit down together and forget their daily chores. Always different, because they express a blend of superb western creativity and ancient craft traditions from Asia. Ancient hands interpret the designs, contributing those small personal variations that have always been the weavers' prerogative and their added value.

BOISERIE WITH SINGLE PANEL
VANO BOISERIE SINGOLO

BOISERIE WITH DOUBLE PANEL
VANO BOISERIE DOPPIO

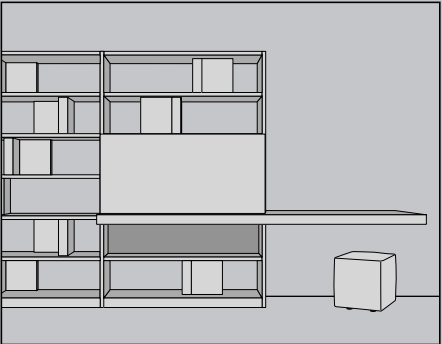

INTEGRATED PROTRUNDING SHELF
PIANO SPORGENTE INTEGRATO

The boiserie compartment is always fitted with two removable backs on which it is possible to mount the TV. The back is fasted frontally and joined in the centre with a central support joint for the panels. The back height is lower than the compartment height to allow passage of wiring from the air space to the TV compartment.

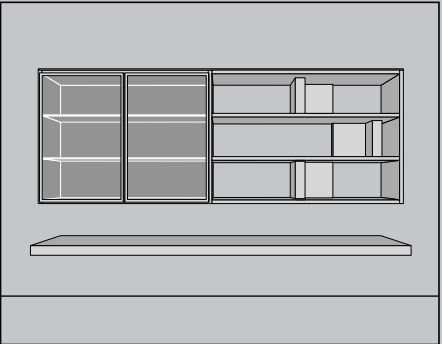

Il vano boiserie è sempre dotato di uno o più schienali removibili su cui è possibile appendere la TV. Gli schienali sono fissati frontalmente e agganciati centralmente grazie al sostegno centrale per unione pannelli. L'altezza dello schienale è inferiore rispetto all'altezza del vano per consentire passaggio dei cavi e cablaggi.

It is possible to use protruding tops only in compositions with D 400. In floor compositions can be positioned at height of one or two modules, in hanging compositions could be at the base.

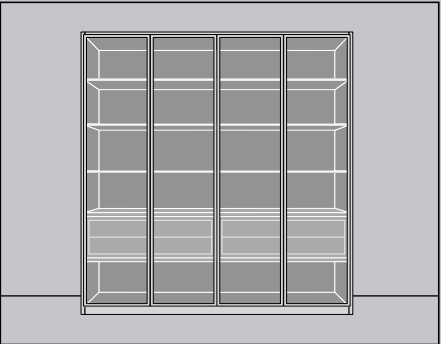

Il piano sporgente è usato solo in composizioni P 400. Nelle composizioni a terra può essere posizionato ad altezza uno o due moduli, nelle composizioni sospese anche alla base.

PIANO SPORGENTE INDIPENDENTE

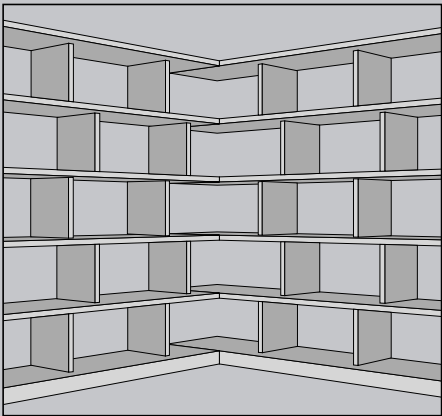

DISPLAY WINDOWS WITHOUT CENTRAL PARTITION
VETRINA SENZA SPALLE DIVISORIE

The protruding shelf can hang out from the composition or be completely independent. The wall fixing system is done by special brackets. The compartment up to the shelf can only be closed with sliding door.

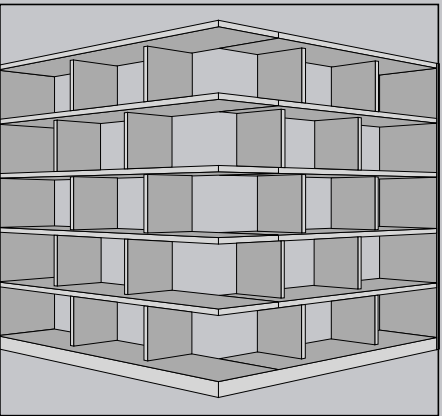

Il piano sporgente può anche fuoriuscire dalla composizione o essere completamente indipendente. Il sistema di fissaggio a muro viene fatto tramite apposite staffe. Il vano superiore al piano può essere chiuso solo con anta saliscendi.

The inner compartment of the window display is no longer divided with central partition.

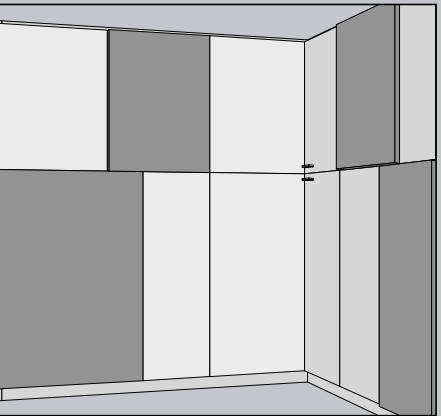

Il vano interno della vetrina non è più suddiviso con spalle centrali.
