BARBICAN — RODOLFO DORDONI 2018

1—
3

“Barbican” is a complete programme of chairs with essential lines, a combination of aesthetics, tradition and modernity. Carefully studied details and delicate but clear lines convey the impact of captivating charm, and evoke strong feelings about this project with a decisively contemporary look. The surprising aesthetic balance between the different bases and seats in two configurations, with or without armrests, emerges from the reduction of all superfluous elements and the proportioned construction of individual components. Structural elements give the volumes an image of lightness and sobriety. Care of materials and attention to detail in these chairs have redesigned the proportions elegantly. Harmonious proportions, materials and refined processes, attention to detail, individual elements in this project contribute to creating a calibrated blend of lines and volumes. Sophisticated in their simplicity, this series of chairs marks the return to a traditional design language that blends aesthetic quality and emotional comfort.
